## INTRODUCTION TO THE 1997 BROOKLINE MASTER PLAN UPDATE

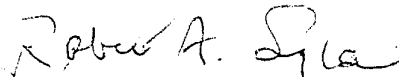

As a reader of this update of the Brookline Master Plan, we very much appreciate your interest in Brookline, New Hampshire.

In 1998 the Town of Brookline was noted as the fastest growing city or town in the entire state. This, doubtless, is an achievement that soon will be accorded another New Hampshire city or town.

However, what we "Brooklinites" most appreciate, I believe, is the spirit of town interest that stimulates your interest in learning more about "your town."

It has been my pleasure to be a Brookline resident who was appointed a representative to the Nashua Regional Planning Commission back in 1985. In 1996-97 I was voted NRPC chairman. This state agency, presently located at 115 Main Street, Nashua, provides the planning expertise and guidance for 12 "Nashua Area" cities and towns. Three additional New Hampshire regional planning commissions provide similar assistance and guidance to most of the state's cities and towns.

If you, or a neighbor, have an interest in assisting with our town activities, the Brookline Planning Board meets twice a month at the Brookline Town Hall or you can call for information (603) 673-8855.
