If you called a member of the Fire Department and left a message requesting a burn permit, the permit does not get issued until you obtain a written permission.

You may call Fire Chief Charlie Corey at the Fire Station (672-8531) for a burn permit request. If you call a member of the Fire Department, it is very important that you leave a message on their answering machine so they can return your call and make arrangements to issue the burn permit. If you are not able to make contact with a member of the department, please call Hollis

Communication at 465-3636 and they will make sure a member of the Fire Department gets back to you. You must provide a phone number allowing the Fire Department to contact you at all times.

You need to have a garden hose charged and in working order or have some means of water to extinguish the fire completely.

Seasonal Burn Permits:

First time Seasonal Burn Permits are only issued by Fire Chief Charlie Corey. An appointment needs to be made with him by calling the Fire Station (672-8531).

Renewing of Seasonal Burn Permits is exclusively done at the Brookline Fire Station or Chief Corey can do it. We do not mail out permits. Permits must be obtained in hand. If it is a rental property the Fire Department needs written permission from property owner to issue the permit.
