MINUTES  
Safety Complex Building Committee 2012-2013  
Police Facility at Safety Complex  
Sunday, March 10, 2013

Present: Peter Cook (chair); Brendan Denehy (vice chair), Francis (Buddy) Dougherty, Dana MacAllister, Ann Somers, Keith Thompson

Not present: Police Chief Bill Quigley, Ambulance Director Wes Whittier; John Carr (BOS rep), Gerald (Jerry) Roche, and Dennis Skey

Also Present: Loring Webster

The meeting began at 11:30 a.m. with a tour of the updated construction. **Peter** guided us through the rooms and provided updates. The primary goal of the meeting was for members to be working from a common understanding if questions should arise at the Annual Town Meeting to be held on March 13th.

An Eckman-to-Brookline transition with regard to landscaping matters was discussed. Some work falls within our contract with Eckman, and will be performed by Farwell Construction. Other work falls outside the contract, and will likely also be performed by Farwell. Irrigation will require bids, which **Peter** is pursuing. Seeding is weather-dependent. We will move forward with boulder placement and other tasks as soon as we can. We may need to delay some work until fall, notably loaming and seeding. It's not possible to determine a firm schedule at this time. **We will make an effort to include Jerry Farwell at our next meeting.**

Peter estimated that the cost to complete the fire suppression system was about 12% of the bond. **Buddy** asked whether cable was being installed in the public meeting room for emergency cablecast to the town. **Peter** said that Wes is working with Charter, and he **will follow up**. Funding would come from the Cable Committee. A number of smaller matters were noted and discussed; **Peter will follow up** where appropriate. Peter noted that we remain on time and within budget, and he expects to keep it that way.

The Committee reviewed a slide presentation Ann had created showing progress to date, to be run silently before the start of Town Meeting. The presentation may be adapted for other purposes following completion.

The meeting ended at 1:30 p.m.
